<b>II.</b>	<b>Biogas-Levy .....</b>	<b>3</b>

The definitions of OPAL NEL -TRANSPORT network access terms and conditions apply

## I. Tariffs

### I.1. OPALCARRY FIRM

#### I.1.a) Tariffs for standard annual capacities

The specific tariff for the provision of firm and free ASSIGNABLE CAPACITIES at entry- and exit points with a booking period of 365 coherent days resp. 366 coherent days in a leap year (tariff for standard annual capacities) is the result of the following table. Additional to the tariffs, fees

for measuring, invoicing and operation of measuring stations as well as the specific biogas levy will be charged as per section II.

Grid Point	Flow Direction	Tariff (EUR/(kWh/h)/a)
Greifswald	Entry	1,75

### **I.1.b) Tariffs for capacity hold-back periods in the course of the year**

The tariff for the provision of firm and FREE ASSIGNABLE CAPACITIES with capacity hold-back periods in the course of the year derives from the multiplication of the tariffs for standard annual capacities as per section I.1.a with a proportional volume of  $\frac{1}{365}$  for every booked day

resp.  $\frac{1}{366}$  for every booked day in a leap year.

## **I.2. OPALCARRY FLEX**

### **I.2.a) Tariffs for INTERRUPTIBLE CAPACITIES**

I.2.a.i) The tariff for INTERRUPTIBLE CAPACITIES amounts to 60% of the tariff for firm capacity as per section I.1.

### **I.3. Exceeding of booked capacity**

If a customer exceeds the ordered capacity in an hour of a DAY, an increased tariff as per § 15 section 6 of the „Vereinbarung über die Kooperation gemäß § 20 Abs. 1 b) EnWG zwischen den Betreibern von in Deutschland gelegenen Gasversorgungsnetzen in der Änderungsfassung vom 30. Juni 2011 Kooperationsvereinbarung“ resp. § 30 section 4 of the OPAL NEL-TRANSPORT network access terms and conditions will be charged. This increased tariff amounts to the four-fold of the regular tariff at the affected grid point.

#### **I.4. Contract provisions for grid operators**

In relation to network operators the regulations as per the sections I.1 to I.3 of this tariff information are valid as per „Vereinbarung über die Kooperation gemäß § 20 Abs. 1 b) EnWG zwischen den Betreibern von in Deutschland gelegenen Gasversorgungsnetzen“. The latest version is valid and supersedes previous versions.

## **II. Biogas-Levy**

The specific biogas levy to be paid in addition to the tariffs amounts to 0,54 EUR/(kWh/h)/a. It is charged for grid connection points to end-consumers as well as to grid interconnection points to downstream operators.
